

CRUX

AK47

The **AK47** is the icon of the crux range. The classic alpine sac, it is small enough for shorter climbs, yet also large enough for multi-day routes. It can carry a heavy load of hardware to the bottom of a route with sufficient comfort, yet when empty is so light you hardly notice it.

Capacity	47 litres
Weight	1170 g
Fabric	Kevlar/Cordura
Frame	8.00 mm Ø 7001-T6 alloy (removable)
